

Sowing & Growing

Nursery and Preschool

A beautiful place to grow

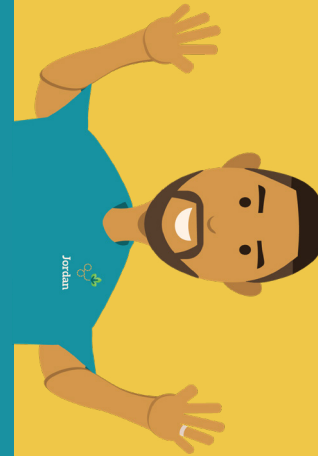

Our Vision

Our vision is to see children and their families reap every reward that a strong foundation in early years learning has to offer.

We believe that children should be immersed in a language-rich environment that facilitates imaginative play and enhances their learning experiences. Our nursery is designed to provide all children with the greatest opportunities to learn. We believe in capitalising on every experience whilst creating spaces that encourage children to ask questions and discover the world around them.

The saying 'it takes a village to raise a child' reigns true to our setting.

We believe that the family tree includes our children and their families, the local community and our amazing staff. For this reason, our focus is on child development, community engagement and raising up excellent and confident Early Years Practitioners who provide high-quality care for your child.

Our Core Values

empowering
communication

family orientated

Our Services

We are a purpose-built Nursery and Preschool open Monday - Friday from 07:30 – 18:30.

We are open 51 weeks per year excluding inset days (which are still chargeable).

- We are a nursery and preschool accepting children from the ages of 3 months.
- Our opening hours are 7.30am - 6.30pm.
- We operate under the 30 Free Hour Scheme to all eligible children from the age of 3 years old and 15 free hours from the age of 2 years old.
- We offer breakfast, snacks and healthy meals, according to your child's needs, preferences and allergies.
- Our outdoor area is filled with the goodness of nature. We even have some special woodland friends we would love you to meet!

Our Development Model

Our focus is geared towards the following elements of your child's development:

1. Learning Through Play

Life is an adventure, and we believe that children learn best when they are given the freedom to explore the world around them, through scaffolded, imaginative play.

2. School Readiness

The transition from nursery to school can be overwhelming for your little one, so we aim to provide your child with the skills to thrive throughout the process, with a focus on attention and early literacy skills.

3. Language and Communication

Your child will experience a language-rich environment to aid early vocabulary learning and communication skills, which are crucial to early development and long-term academic trajectory.

4. Importance of friendship and building relationships

Our focus on this key area of development enables children to understand and communicate feelings and develop a strong sense of self. Our focus on the local community also increases children's ability to understand the world around them and develop and maintain relationships.

Our Team

The Sowing and Growing family is a fun and passionate team which is also committed to see each child develop in not only academic skills, but confidence, self-awareness and empathy. We are a strong community with a value-driven culture and we pride ourselves in our ability to value our staff and encourage their development as Early Years Practitioners.

Our team has been empowered with knowledge designed to enhance learning opportunities through the use of language, stimulating environments and vivid dialogue. We take pride in this approach and offer workshops and activities for our parents so that each child can reap the benefits of what we sow in every environment they encounter.

- All of our practitioners are trained in paediatric first aid and safeguarding.
- We are a communication-friendly nursery catering to children of all backgrounds and needs – our SENCo liaises directly with parents of children who have special educational needs or EAL.
- Our practitioners receive specialist communication training from our in-house RCSLT registered Speech and Language Therapist, who is available for private bookings upon request.

Our Location

Chatsworth Baptist Church
Chatsworth Way,
London SE27 9HN
(entry via Idmiston Road)

To organise a viewing, or discuss the enrolment process, please do not hesitate to contact us!
We look forward to hearing from you.
